

THE BEST IN THE BUSINESS

SPEEDCHECK™

Quick Change

Now SpeedCheck™ speed displays can be easily moved for immediate traffic calming impact at multiple locations. QuickChange™ brackets were designed to enable traffic engineers, police departments and other users to move SpeedCheck® radar speed display signs between several locations.

- ✓ One set of brackets stays on the mounting pole, and the other remains attached to the SpeedCheck display
- ✓ Reduce the time and expense associated with sharing your SpeedCheck display among several locations
- ✓ Rotate traffic calming devices between several areas where speeding and safety are of particular concern
- ✓ Made of heavy, durable stainless steel plates to withstand all weather conditions
- ✓ Available for SpeedCheck high-visibility 15" speed displays
- ✓ Padlock eye for security and easy removal
- ✓ Attach to mounting pole with U-bolts, clamps, or stainless-steel banding
